April 17, 2018

Hello,

OACAC Head Start is reaching out to Mental Health providers who are interested in and have a passion for serving young children and their families, and who can commit to providing continuity of counseling services for the child.

The mental health provider will provide mental health promotion, prevention, early identification of mental health concerns and referral for treatment of children and families. These children/families are Medicaid/Managed Care participants.

Something new to our contract is that Head Start will provide a travel allowance to cover time and mileage as well as reimbursement for time spent communicating with staff and/or in behavior support meetings.

Please find attached to this letter the bid letter and center list.

Sincerely,

Teresa Dickey
Director of Family and Community Partnerships
OACAC Head Start
